***\* It is ok to write I don't know if you do not know right now why they are having the feelings they are having.***

***They don't always know either.***

***This is a safe place where your children are loved and cared for in a healthy way as we teach them about Jesus in a way they can learn to the best of their cognitive ability.***

***We utilize appropriate interventions and accommodations as needed for each individual child based on their level of need and cognition.***
